

Vertical broaching tool RSIZ 1,5/600-2

Locher

RÄUMWERKZEUGE RÄUMMASCHINEN

RSIZ 1,5/600-2

Vertical broaching tool with electromechanical tool lift with a concurrent tool operator, continuously adjustable broaching speed and automatic broaching process. The machine also possesses the feature to manually load during the machine rewind. Front loading area with sliding table.

Technical Data:

Broaching stations	2
Center distance	120mm
Pulling force	15 KN
Stroke	600mm
Broaching tool length max	800mm
Broaching speed	1-12m/1
Rewind speed	12m/1
Weight	ca.850kg
Floor space	ca. 1200 x 1200mm
Height	ca. 3100mm
Servo motor broaching drive	
Servo motor operator drive	

Double shaft holder for shafts up to Ø14 according to DIN1415
Possible interface for automatic loading
Optional back door for roboter loading
Optional brush facility for two broaching stations
